

## CIS HOTELS & ACCOMMODATION

**C-Bus**

**CLIPSAL**  
INTEGRATED SYSTEMS

### Hotels and Accommodation

Creating the right ambience within a hotel is easily achieved with lighting controls whilst also providing a level of energy management. Typical areas controlled include:

- Guest rooms
- Foyers
- Lobbies and corridors
- Decorative lighting
- External and landscape lighting
- Back of house areas
- Car park

### Retail

Lighting controls offer the store operator and their customers an inviting ambience combined with energy management and flexibility. Typical applications include:

- Department stores and boutique stores
- Supermarkets
- Fast food restaurants
- Shopping centres and malls
- Big box retailing
