

LIFESTYLE SET

CLIPSAL INTEGRATED SYSTEMS

Goodnight Mode
 Control your lights, shades and music with CLIPSAL's integrated system. The "Goodnight" button on your remote or touch screen will turn off your lights and shades and set your music to a soft lullaby. You can also set your system to turn on your lights and shades in the morning for a soft wake-up.

Helping the elderly and disabled
 Intelligent switching can be a critical tool for the safety of disabled users. CLIPSAL can be set to control these users' electronic smart lighting systems, controlled remotely from a single button for raising, lowering, window blinds and shutters.
