CLIPSAL
ELECTRICAL ACCESSORIES

An unequalled selection.

Boasting literally thousands of products, Clipsal's vast range of electrical accessories continues to meet the demands of an everchanging building industry.

Leading the way, in both function and design, the extensive range includes an unequalled collection of sockets and switch styles to suit every application. It also covers a vast array of exhaust fans, ceiling fans and multi-purpose units, as well as a huge range of conduit, ducting and fittings.

Having surpassed the expectations of Clipsal's founders, and providing unparalleled support to an already formidable range of products, Clipsal's current switches, sockets and general wiring accessories are among the most popular in the world.

CLIPSAL
INDUSTRIAL

Australia's toughest.

Achieving enormous success in the industrial market since the late 1970s, Clipsal Industrial is now Australia's largest manufacturer of miniature circuit breakers (MCBs) and residual current devices (RCDs).

Committed to developing the industry's largest range of industrial equipment, the Clipsal Industrial range presently includes the 4 Series Power Range, protection devices and test equipment, 56 Series Controlgear, Industrial Switchgear, 6 Series contactors and motor control, bars and links and much more.

Designed in a variety of plastics to suit different applications, the Clipsal Industrial range is ideally suited to Australia's harsh conditions.

CLIPSAL
DATA COMMS

Your end to end solution starts here.

Entering the communications market in 1997, Clipsal Datacomms has successfully positioned itself as a major player in the thriving global data and communications equipment industry.

With an extensive and evolving product range that includes voice, patch-by-exception and data cabinets, Clipsal Datacomms now offers a complete end-to-end solution for any type or size of installation.

Having forged strategic partnerships with other leading global specialists, Clipsal Datacomms has almost doubled in size each year. Today, Clipsal Datacomms is the single point of supply for all your data needs, providing the installer with the assurance of quality, reliability, compatibility and total after sales support.

CLIPSAL
INTEGRATED SYSTEMS

Intelligent building automation.

Clipsal Integrated Systems (CIS) specialises in the design and manufacture of building automation and high-end electronic products for domestic, commercial and industrial environments.

The range includes the C-Bus Control and Management System, Home Automation System, StarServe Home Networking System and various other functional and energy saving products. CIS have also developed numerous software programmes to commission, monitor and control these systems.

With a high level of infrastructure, including its own in-house design, engineering, manufacturing and marketing facilities and a global sales and support network on call, CIS is committed to the production of the world's most advanced, yet user-friendly range of electronic automation and energy management systems.

PIERLITE

Light years ahead.

Originally recognised for its expertise in hazardous and adverse location luminaires, over the years, Pierlite has developed to become Australia's largest overall lighting manufacturer.

Representing the widest range of quality, energy efficient, low maintenance luminaire products in the world, Pierlite leads the way in the provision of innovative and environmentally friendly lighting solutions.

With an international network of contacts and strong alliances with other leading lighting manufacturers including Philips, Pierlite's reputation as a manufacturer, distributor and supplier of lighting products to architects, consultants, specifiers, industry retail, commercial and government bodies is unchallenged.

We have the complete game for the building industry

Adelaide's premier builder of luxury homes, Medallion Homes use Clipsal electrical accessories for all its residential projects.

Wolf Blass Winery in the Barossa Valley specified Clipsal Industrial's weatherprotected 56 Series industrial switchgear.

World class Adelaide Convention Centre is fitted out with state of the art Clipsal Datacomms equipment.

Clipsal Integrated Systems provided Stadium Australia with C-Bus to ensure superior energy management and lighting control.

Pierlite lights up Anzac Parade in the nation's capital with the most energy efficient and lowest maintenance streetlights in the world.

TEE OFF WITH CLIPSAL

From general electrical accessories and heavy-duty industrial equipment, to energy efficient luminaires, high end communications networks and intelligent building management systems, Clipsal has a comprehensive product range to suit every application.

Backed by more than 80 years history in producing high quality electrical product, Clipsal can provide you with the complete range of electrical solutions for your next project.
