

ELECTRONIC TIMER

Model 6322

(For use only with PDL Wall/Ceiling Exhaust Fan Models 6402, 6502, 6602)

INSTALLATION INSTRUCTIONS

WIRING

Note: All wiring must be securely fixed and the supply cable must be a minimum of 1mm² in section. All wiring must comply with the current regulations.

IMPORTANT: Switch off mains supply before making any electrical connections.

INSTALLATION

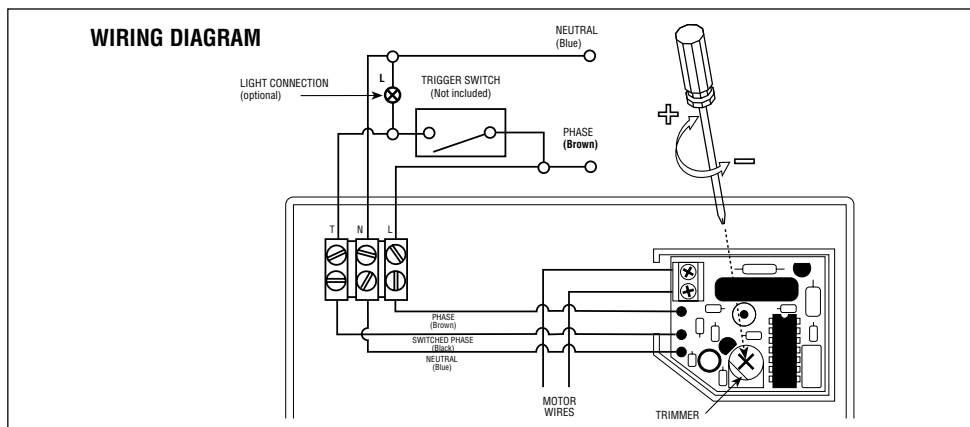

- 1 Remove screw cover and front grille from the Wall/Ceiling Exhaust fan motor housing.
- 2 Remove 2 motor wires from terminal block and re-connect to electronic board as shown in Wiring Diagram below.
- 3 Connect the remaining electronic board and mains supply wires to terminal block and trigger switch as shown in Wiring Diagram below. Ensure mains supply cable is fixed with the cable fastener.
- 4 Position electronic board into fan motor housing.
- 5 The timer can be pre-set from 3 to 20 minutes by adjusting the trimmer **(only adjust with power switched off)**.
- 6 Screw on electronic board cover and replace front grille and screw cover.

NOTE: The fan will automatically start up 20 seconds after light or trigger switch is on and will continue to operate for the time pre-set after the light or trigger switch is turned off.

(Max. load of timer is 150 Watt).

GENERAL NOTE:

- The appliance is not intended for use by young or infirm persons without supervision.
- Young children should be supervised to ensure that they do not play with the appliance.

6322-ELECTRONIC-TIMER-PDL-0804-L

PDL ELECTRICAL PRODUCTS

This product is guaranteed for a period of two years from the date of purchase against defects in workmanship and materials (excluding broken elements in radiant heaters and lamps in fan/heat/light units). Defects will be rectified by replacement of the product purchased except where, in Schneider Electric's discretion, minor adjustments can be undertaken instead of replacement.

Where a product is replaced it shall be guaranteed for the balance of the original guarantee period. Schneider Electric will replace a product that is no longer available with another product to a value and with features Schneider Electric considers appropriate.

Defects occurring in the following instances are expressly excluded from this guarantee:

1. Power Surges;
2. Incorrect installation;
3. Electromagnetic interference;
4. Misuse, abuse, modification, or tampering with the product;

Schneider Electric is not responsible for the installation or removal of the product, freight forwarding charges, losses or damage in transit, or associated expenses.

If your Schneider Electric product fails to operate satisfactorily, please return it to the point where it was purchased.

To enable Schneider Electric to honour this guarantee you will need to produce satisfactory proof of purchase and this guarantee card.

Service outside the guarantee will be at your cost. Schneider Electric does not undertake that repair facilities or spare parts will be available for this product.

IMPORTANT: PLEASE RETAIN THIS GUARANTEE CARD
